Virtuora® NC Introduction - eLearning

Duration

Online – 1.5 hours

Contents

This eLearning trains students on the basics of the Virtuora® Network Controller (VNC) to familiarize them with the Graphical User Interface (GUI) before the more in-depth Virtuora NC GUI Instructor Led course.

Who Should Attend

The Virtuora® Network Controller (VNC) Fundamentals course is designed for learners who want to walk through the VNC application and view several tasks a user might perform. The course shows examples of the GUI windows and their basic functions.

Course Outline
