

# Virtuora® eXtended Management (VXM) Fundamentals - eLearning

## *Duration*

Online – 1.5 hours

## *Contents*

This eLearning walks learners through an overview of the Topology, Monitor, Dashboard, Upgrade, Administration, and Site Management tabs of the Virtuora eXtended Management Microapplication, and basic tasks you can perform on each tab.

## *Who Should Attend*

The Virtuora® eXtended Management (VXM) Fundamentals course is designed for learners who want to walk through the VXM application and practice several tasks a user might perform. The course shows examples of how network topography appears, performing backups and managing user roles.
